“World’s Greatest!” to Feature Pennsylvania Anthracite Company *Blaschak Coal Corp Profiled on DirecTV, Dish Network*

MAHANOY CITY, PA (October 14, 2015) —[Blaschak Coal Corp](http://www.blaschakcoal.com) – a company engaged in the mining, processing and distribution of anthracite coal in Pennsylvania, and one of the country’s top anthracite producers – will be featured on episode 219 of “World’s Greatest!,” airing on DirecTV channel 305 and Dish Network channel 250. The episode will also be available on www.worldsgreatesttv.com.

“World’s Greatest!” tells “the story behind the story,” offering viewers behind-the-scenes footage and interviews with some of the world’s most interesting companies. The show offers an educational, informative and entertaining look into unique products and services.

Blaschak’s segment covers the history of the company, along with how it has found success, its environmentally friendly initiatives and how its coal mining operations work on a daily basis.

“Blaschak really has a fascinating story to tell,” said Greg Driscoll, president and CEO of Blaschak Coal Corp. “From our inception more than 75 years ago, we’ve been pioneers in the Pennsylvania anthracite industry. We’re thrilled that ‘World’s Greatest!’ is broadcasting our story.”

The segment will air at 6 a.m. EST on Monday, October 19 and again on Monday, October 26 on DirecTV channel 305, Dish Network channel 250 and online.

About Blaschak Coal Corp.

Blaschak Coal Corp. (www.blaschakcoal.com) is a miner, preparer and marketer of Pennsylvania anthracite. Blaschak is a market leader and one of the few fully integrated U.S. anthracite companies with a large reserve base, multiple mines and preparation plants, a bagging plant, both rail and truck loading facilities, and extensive marketing operations serving a wide range of end markets, including home heating, steel and water filtration.
